"My clientele are predominately professionals, such as physicians, lawyers, PhDs and pro athletes...all of whom are familiar with what it takes to become a 'professional.' In all of those fields, it takes a lot of hard work, practice, dedication and continual testing or trials to validate their abilities. My degrees assure my clients that they are dealing with a qualified photographer who is at the top of her game. Couple that with excellent customer service and unique, quality products, and you have a great reason to charge top dollar for your work." [Click to read more \(or less\).](#)

"Besides certification, PPA's degrees are the only solidifying way to say you are a professional photographer." [Click to read more \(or less\).](#)

"If greatness was a destination, we'd still have to travel to get there. Every day we've got to do something. There's no standing still in this industry... you're either moving forward or backward."

Dave Huntsman, **M.Photog.Cr.**

"When I first joined PPA in 1986, I wanted to be one of the "cool kids." I thought that in order to join the "cool" group, I needed to prove my competence as a professional photographer. What I found, instead, was something that vastly improved my own imagery and business." **Click to read more (or less).**
